At Amesbury, safeguarding is embedded in our culture to ensure that everyone feels safe and secure. We promote an open environment where concerns can be raised confidently, and staff receive regular, rigorous training. Our close work with external agencies reinforces our commitment to keeping children safe.

General safeguarding concerns should, in the first instance, be reported to the DSL or one of the DDSs.

If your concern relates to a member of staff, please report it to the Head.

If your concern relates to the Head, it should be referred to the Chair of Governors.
